ABOUT US

Hollmark Bowling was founded in 2017 in hopes of creating a unique alternative to the years of status quo that had taken place in the bowling shoe market. Hollmark Shoes decided that the status quo was not good enough and decided to develop and release bowling first TRUE High Top Shoe. Hollmark Shoes looks to the future of bowling and continues to challenge the industry standard, with only one goal in mind, and that is “To Leave A Mark” on this industry.

With the release of Hollmark’s first shoe, we set out to be different, and in doing so decided to release bowling First True High Top Shoe. Hollmark has followed that release up with the release of five other colors & designs in 2017. In August of 2018 Hollmark reached a new milestone and released the “Hollmark Blackout” Interchangeable shoe. The Blackout was not only the first High Top Interchangeable Shoe, but also the only affordable leather interchangeable shoe on the market. Hollmark Shoes are made with high quality material with a primary focus on eliminating long wait times & high shipping prices. When you step up on that approach in 2018, make sure you have stepped up your shoe game with Hollmark. Now Go Out And Leave A Mark!!!
